QUICK START GUIDE

Step 3. Transferring media files

Open 'My Computer' on your PC.

My Computer

Your Media Player will appear as PMP Grundig Drive. Open the new drive.

PMP Grundig (F:)

Note: the above drive letter (F:) is an example and may differ on your PC.

The new drive will consist of different media folders. Open the desired folder.

You can now 'drag and drop' files from your PC to the Media Player.

Note: the above is an example.

Only 'drag and drop' the correct file to folder, for example MP3 files to Music folder or photos or images to the Image folder.

QUICK START GUIDE
